'I like to keep my body in shape, and I was thrilled recently to find a genuine Turkish bath in London. There aren't many of them around, so I'm keeping it a secret.

'They have a magnificent masseur called Nico there, and the things he does to my body are unbelievable. He weighs about 25 stone and stands about six feet tall, but he's so tender and gentle that he sends shivers all through my body when he touches me.

'I have very sensitive breasts, and when Nico starts work on them, kneading tweaking and rubbing them, my pussy gets sopping wet. He can tell when I'm aroused, and he slowly works his hands down my front on to my thighs.

'He then only has to squeeze the inside of my buttocks to bring me to a shuddering climax – which he does with alarming frequency. Of course, he denies he's done it intentionally, but I always leave a nice fat tip for him. Maybe one day I'll take him home with me and . . . but let's not count our chickens eh? He might not even want to!' Why not? Is he dead? ♣

'I'm glad Fanny decided to put me in a nice, airy setting – I always feel my best in a fresh environment. I'm not one of those shrinking violets who likes to have all the lights dimmed and the windows covered when she feels sexy.

'On the contrary, I have a very spacious bedroom with strategically placed spotlamps which highlight my kingsized bed. I like to scrutinise my man thoroughly – I don't want to get fobbed off with any shoddy goods. If he can't stand up to my highly critical inspection, then it's better for both of us if he goes without ceremony.

'Fortunately, occurrences like that are rare – I'm a pretty shrewd judge of men, and I know exactly what I like. I also know exactly what I like to do, and men are never disappointed with my expertise.

'I feel that the greatest burden in a sexual relationship is on the man, because even if a woman isn't in the mood, it's easy for her to fake it. How can a man fake it? Therefore, I feel it's only fair to treat a man like god when I'm fucking him – that brings out the best in him, and consequently I get a better fuck from him; I'm no fool! ♣

Tony has sent us these pictures of his wife, part-time nurse somewhere in Yorkshire. With nurses like that, who wants to be well?

Some people like nurses uniforms, some like sexy undies, but D Owens of Tyne and Wear feels deeply affectionate towards this mean machine. It takes all sorts.

On the left, three shots of a lady who goes by the name of Trish, and claims to be 50 years old. If that's what 50 years of wild living do for you, we're confident about the future!

Denmark is the home of sexy, saucy Berit, snapped in full glorious colour by her adoring fan Raymond.
